Health Care Series

Health Care - Kidney

CD131 70G (24 cans/ctn) Ctn Size: 20.8cm x 14.1cm x 12.5cm

Description:

Consist of 3 natural ingredients, Ginger Powder, Turmeric Powder and Dried Parsley that are good for kidney.

Ginger Powder helps neutralize unstable molecules known as free radicals. These molecules cause inflammation and damage to cells and tissues, including kidneys when your antioxidant intake is insufficient. Since oxidative stress has a negative impact on kidney function, it may be helpful to increase antioxidant intake. Powdered ginger can improve blood sugar control, kidneys are particularly at risk when blood glucose remains elevated and supplementing ginger significantly lowers fasting blood sugar.

Turmeric may contain substances that support kidney health. Turmeric Powder as an anti-inflammatory, may offer some protection against chronic kidney disease. The curcumin in turmeric blunts the effects of the inflammatory molecules and enzymes that may lead to chronic kidney disease. However, Turmeric is also a source of potassium and intake amount has to be limited.

Parsley has also been shown to act as a natural diuretic, which can increase urination and prevent kidney stone formation.

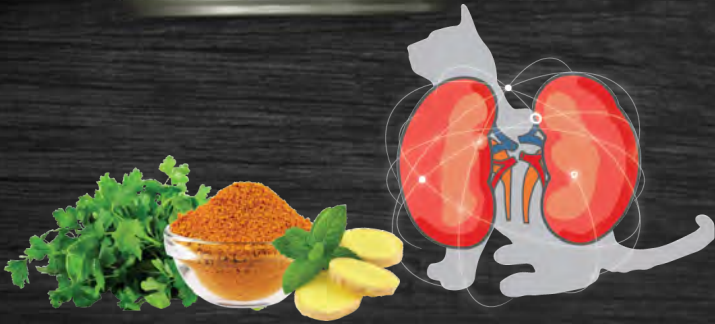

GUARANTEED ANALYSIS :

Protein	6.0% (Min)
Fat	0.5% (Min)
Fiber	0.5% (Max)
Moisture	90.0% (Max)
Ash	2.0% (Max)

Ingredients:

Tuna Meat, Chicken Meat, Rice Raw, Enhancer, Hydrolyzed Chicken Protein, Polysaccharide Gum, Tuna Oil, Taurine, Oligosaccharide, Mineral, Vitamins, Turmeric, Ginger, Cranberry Extract.

Health Care - Liver

CD132 70G (24 cans/ctn) Ctn Size: 20.8cm x 14.1cm x 12.5cm

Description:

Consist of 3 natural ingredients Broccoli, Turmeric Powder and Green Tea Extract that are good for Liver.

Turmeric appears to exert positive effects on liver function. Turmeric may improve liver function by increasing detoxification ability, help reduce free radical damage. Turmeric is hepatoprotective in nature therefore protecting liver health. Its anti-inflammatory action can help prevent the activation of hepatic stellate cells and prevent liver cirrhosis. The antioxidation activity of curcumin can improve liver function.

Green tea extract are mostly due to its high antioxidant content, it seems to improve liver function by decreasing inflammation and oxidative stress. Catechins in green tea extract may also help inflammation caused by some liver diseases.

Consuming Broccoli on a consistent and longer term basis, reduced accumulation of fat in the liver and the reduced development of Fatty Liver Disease (NAFLD); and reduced incidence of Liver tumors and cancerous liver nodules, Broccoli also appears to be very helpful in the fight against Fatty Liver Disease and will help rejuvenate your liver health. In addition, Broccoli provides you with an abundant source of powerful antioxidants including kaempferol, quercetin, lutein, zeaxanthin and beta-carotene. These antioxidants work to boost your health and your immune system.

Ash	2.0% (Max)

Ingredients:

Tuna Meat, Chicken Meat, Rice Raw, Enhancer, Hydrolyzed Chicken Protein, Polysaccharide Gum, Taurine, Mineral, Vitamins, L-Carnitine L-Tartrate, Instant Green Tea Powder, Tumeric Powder.

Health Care - HEART / CARDIOVASCULAR

CD133 70G (24 cans/ctn) Ctn Size: 20.8cm x 14.1cm x 12.5cm

Description:

Consist of Tuna oil and Tomato that are good for Heart/Cardiovascular.

Fish oils are often a more concentrated source of omega-3 fatty acids, especially DHA and EPA, than tuna. Furthermore, fish oils are generally purified, meaning they are free from harmful levels of contaminants, such as mercury, which can be found in tuna. Omega-3 oils containing DHA and EPA are important and may help reduce inflammation, heart problems and peripheral artery disease. There are reports reporting that fish oil supplements are effective for reducing high triglyceride levels.

Tomatoes are a very nutritional food source rich in anti-oxidants, vitamin A and C, folic acid and beta-carotene. They are also rich in a substance called lycopene. Lycopene is a bright red carotene that gives tomatoes their color. Lycopene's strong antioxidant properties may help improve cholesterol levels and reduce the likelihood of developing or dying prematurely from heart disease.

GUARANTEED ANALYSIS :

Ingredients:

Tuna Meat, Chicken Meat, Rice Raw, Enhancer, Hydrolyzed Chicken Protein, Polysaccharide Gum, Tuna Oil, Mineral, Taurine.

Health Care - Joint

CD134 70G (24 cans/ctn) Ctn Size: 20.8cm x 14.1cm x 12.5cm

Description:

Consist of Aloe Vera, Tricalcium Phosphate, Turmeric Powder, Chondroitin Sulphate and Glucosamine Hydrochloride.

Aloe vera is a potential alternative medicine for the treatment of joint pains. Its anti-inflammatory nature helps relieve the body of inflammation and pain. Aloe vera contains the same natural compound that found in cartilage called glucosamine that helps for reducing arthritis pain and stiffness. In addition to relieving the symptoms of joint pain, it also helps in treating the damaged or injured joints and prevents it.

Calcium is an essential mineral you need for many bodily functions and for bone development.

The most important property of turmeric with regards to bone health is its anti-inflammatory property.

Chondroitin may provide additional pain relief to knee and hand osteoarthritis.

Glucosamine possesses powerful natural anti-inflammatory. Glucosamine is needed for the synthesis of certain proteins and fats that form important tissues such as cartilage. This plays an important part in the construction of joints, tendons and ligaments.

GUARANTEED ANALYSIS :

Protein	6.0% (Min)
Fat	0.5% (Min)
Fiber	0.5% (Max)
Moisture	90.0% (Max)
Ash	2.0% (Max)

Ingredients:

Tuna Meat, Chicken Meat, Rice Raw, Enhancers, Hydrolyzed Chicken Protein, Polysaccharide Gum, Mineral, Taurine, Chondroitin Sulfate, Glucosamine Hydrochloride, Turmeric.

Health Care - Digestion

CD135 70G (24 cans/ctn) Ctn Size: 20.8cm x 14.1cm x 12.5cm

Description:

Consist of Papaya, Ginger Powder, Oligosaccharide.

One interesting area of research on oligosaccharides is their ability to function as prebiotics. Prebiotics has many powerful benefits and one of them is improving digestion.

Papaya contains quantities of the digestive enzyme papain, which helps the body break down protein and therefore speed up digestion.

Ginger Powder is frequently used as a quick fix for settling the stomach and easing digestive distress.

GUARANTEED ANALYSIS :

Protein	6.0% (Min)
Fat	0.5% (Min)
Fiber	0.5% (Max)
Moisture	90.0% (Max)
Ash	2.0% (Max)

Ingredients:

Tuna Meat, Chicken Meat, Rice Raw, Enhancers, Hydrolyzed Chicken Protein, Polysaccharide Gum, Oligosaccharide, Taurine, Mineral, Ginger.

Health Care - HAIRBALL CONTROL

CD136 70G (24 cans/ctn) Ctn Size: 20.8cm x 14.1cm x 12.5cm

Description:

Consist of Cellulose and Carrots.

Cellulose-enriched dry and wet cat foods make claims on hairball control. Research data indicate that supplemental dietary cellulose reduces hairball symptoms and raises faecal hair excretion in cats. Cellulose may prevent the agglomeration of single strands of hair in the stomach, thereby increasing the transfer of loose hairs into the duodenum. Cellulose ingestion also accelerates the transit of digesta and thus propels duodenal hair into the faeces.

The fiber content found in these vegetables can also be good for your cat's digestion, just as it improves the digestion in us! Small shaved carrots in your cat's wet food or a few cooked pieces of carrot can go a long way towards improving your cat's gastrointestinal function.

GUARANTEED ANALYSIS :

Protein	5.0% (Min)

Aristo-Cat® Cat Food is manufactured using the freshest raw materials direct from the ocean.

Jelly that is included are produced with our unique recipes that all cats, even the fussy ones are tempted.

*A Complete Nutritional Meal
Your Cat Will Love!*

- **Taurine Added for Shiny Eyes**
- **Vitamin Enriched**

- **Scientific Academy Proven**
- **Low Magnesium**

Aristo-Cats® Cat Food, we aim to provide premium quality food at competitive prices. We make sure to use only the highest-quality ingredients. In fact, we get a lot of them in the south where it is manufactured (which saves a lot of transportations cost).

Our meat proteins are exclusively poultry based because, well, other proteins just won't do. It combines just the right amount of grains plus fortified vitamins and minerals to create a 100% balanced meal for your cat or kitten.

We love animals, and that passion drives us to provide what's best for your playful friends.

Tuna & Chicken

Ingredients:

CAT LITTER SUPER ABSORBENT

Aristo-Cats® Cat Litter reacts immediately, it forms compact lumps when it becomes wet, so that not a single drop can pass through. Aristo-Cats® cat litter adsorptive capacity assures safe binding of bacteria and odours, quite naturally, without any chemical additives. Aristo-Cats® cat litter has a low-dust grain texture and does not stick to paws and fur. Aristo-Cats® cat litter is a special clay with extremely good adsorptive properties. In other words, it is an entirely natural, environmentally safe product, unbleached and contains no harmful substances or fibres. After use, it can be reemployed as a composting aid, or for soil-improvement, with excellent results. Aristo-Cats® cat litter is economical, only the clumps have to be removed daily! Just add more litter, instead of completely refilling. Fill initially to a height of 7cm. Aristo-Cats® cat litter is an entirely natural, environmentally safe product containing no harmful substances or fibres (clumps can be reemployed as a composting aid). Aristo-Cats® cat litter is environmental friendly and definitely cat lover best choice.

RB046 10L (104 bags/pallet)

Natural Cat Litter

- 100% Natural
- Absorbs Faster
- Chemical Free
- No Tracking
- Safer & Healthier
- No Dust
- Neutralizes Odor Naturally

Aristo-Cats Natural Pine Cat Litter is 100% natural. It contains NO chemicals. It is safe for your pet, safe for the owner and safe for the environment.

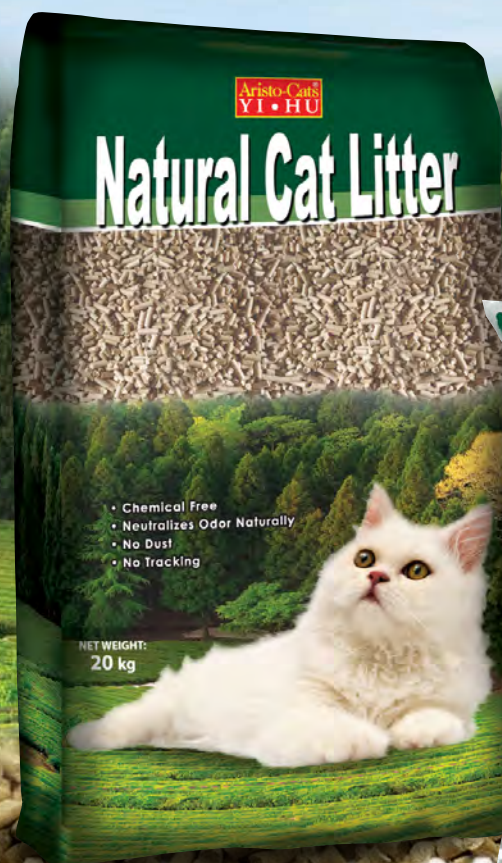

Aristo-Cats® Natural Pine Cat Litter is 100% natural. It contains NO chemicals. It is safe for your pet, safe for the owner and safe for the environment.

Aristo-Cats® Natural Pine Cat Litter naturally absorbs and neutralises odours faster. Pellets that are wet will turn into sawdust, they are biodegradable and can then serve as a good source of fertilizer for your garden. Pellets that have turned to sawdust will fall to the bottom of the litter tray. The litter tray can be easily cleaned as the sawdust will not stick to it.

Sumo Cat® Premium Cat Litter is using ball shape to avoid sticking on paws and fur. Its absorptive power ensures that the liquid waste will be absorbed immediately to form clumps and not a droplet will pass through to the bottom of the tray, please ensure that litter tray is filled at least to a height of 7 cm.

Economical, as only clumps are needed to be scooped away and the remaining cat litter stays fresh and useable.

ZERO ODOR

Bark® Zero Odor is a revolutionary breakthrough in bad smell removal. Effectively remove germs & bacteria as well as to create a healthier clean environment.

100% natural product made with plant extracts that is safe for animals. The effect is much better than conventional air refreshers that simply use stronger smells to cover the bad smells.

- 100% Natural Ingredients
- Plant Power with Purification Effect
- Anti-Bacteria
- Removal of Germs & Molds

Ingredients:

The rule mixed extract of 118 different types of forest plants.

PA277 200ML (24 boxes/ctn)
 Ctn Size: 36cm x 25cm x 20cm

PET SHEET

Ultra Absorbent Elements, SAP Super Absorbent Polymers.

Bark® Pet Sheet is a much superior product in absorbent material compare to the traditional ones. It is faster and has better absorption capabilities, it does not leak easily even with the high acidity of dogs' urine nor under high temperature.

The use of SAP allow pet sheet instant absorption, effective odour removal & anti bacterial. Pet Sheet can be use with pet toilet or pet cages. It is convenience to use, durable & cost effective. Many other advantages are not listed and waiting for you to realise them yourself.

Conditioner

The smell that is most likely to linger after bathing will be the dog conditioner. Therefore, Canines' Language® is using back to basic, baby talcum powder fragrance that doesn't irritate both the canine's and the owner's nose. It helps in detangling fur when brushing. Canines' Language® is easy to use, tearless and leave a lustrous, clean and healthy coat after using.

Ingredients:

Distearoylethyl Hydroxyethylmonium Methosulfate,
Cetearyl Alcohol, Pro Vitamin B5 and Fragrance.

PA571 415ML (12 bottles/ctn)
Ctn Size: 17cm x 11.5cm x 23cm

Icy Cool Powder

Canines' Language® Icy Cool Powder is specifically produced for dogs. It contains active ingredient, Triclosan, which has antibacterial and antifungal functions, it has the ability to stay at your pet's fur for a certain period of time, thus doing the job of killing germs all the while. Allantoin, which is a chemical compound produced naturally that is odorless, safe, non toxic and non-allergenic is included as well, Allantoin is moisturizing and keratolytic, it helps skin to heal quickly and moisturize effectively. Menthol, which is able to give a cooling effect, quickly soothes the skin and relieve skin irritation, meaning it has the abilities to stop your dog from scratching it's skin to certain extent. It can also increase comfort in hot weather. This product can also be treated just like an ordinary powder, it's fragrance is so deodorizing that both you and your dog will definitely enjoy.

Ingredients:

Talc, Menthol, Triclosan, Allantoin, Fragrance

Cool Sport
PA572 150G

Pinky Cool
PA573 150G

PEE SHEET

Super Absorbent

Canines' Language® Pee Sheet absorb and turns urine into gel very quickly to prevent spills and maintaining a dry surface to prevent tracking. Water proof PE film at the bottom layer prevents leakage and staining to your floor.

Advantages of using Canines' Language® Pee Sheet:

- Comfortable for the dogs
- Convenient and easy cleanup
- Convenient for puppy training
- A good option for dog who can't go outside due to health issues
- A good option for people who work long hours such that their dog can't be expected to hold and wait to go outside
- There are many more advantages waiting for you to find out

FELINE SERIES

TOFU CAT LITTER

Environmentally Friendly

NO Artificial Additives Added

Biodegradable

Platinum Choice® Tofu cat litter is made of food graded ingredients. It is one of the best clumping, odour absorbent, hassle free cleaning litters available. It's a natural biodegradable litter that can be flushed down the toilet.

Platinum Choice® tofu cat litter is so effective that it can absorb a liquid volume four times greater of its size in seconds of time. Rapid absorption of liquid has better control of odour, thus efficiently suppress the bad odour from spreading, resulted in lasting longer and more economical in using.

Environmentally friendly. It's a natural option with absolutely no artificial additives added. Tofu cat litter is also biodegradable.

Since tofu litter is plant based, it is a natural option safer for your cat. Tofu litter is dust free, which helps prevent many respiratory issues.

The scent is natural, and the surrounding is always so refreshing that you and your cat can breathe comfortably.

Every pallet is made to the comfy of your cat's paws to the diameter of 2 mm.
